

CIVIL ENGINEERING

STATEMENT OF QUALIFICATIONS

RRC's Civil Engineering Group is ready to transform your project vision into reality, from initial conceptual design to on-site construction support.

With a wealth of experience, our engineers have successfully delivered civil designs for a diverse range of clients, including wind and solar project owners, developers, and contractors. Specializing in geometric roadway, mass grading, pavement, and utility crossing design, as well as hydrology and hydraulics studies, we excel in every aspect of civil engineering. Our comprehensive services extend to permitting

support and the preparation of essential plans such as Stormwater Pollution Prevention Plan (SWPPP) and Spill Prevention Control and Countermeasure (SPCC) plan.

With a commitment to excellence and attention to detail, RRC ensures that every aspect of your project is meticulously planned and executed to the highest standards.

- PCL

Services

Geometric Roadway Design

Grading Design for Wind and Solar Projects

Grading Design for Substation and BESS Pads

Pavement Design

Utility Crossing Design

Equipment Delivery and Transportation Plans

Hydrology and Hydraulics Studies and Design

Drainage and Detention System Design

Flooding Plan and Scour Analysis

Project Permitting Support

Stormwater Pollution Prevention Plan (SWPPP)

Spill Prevention Control and Countermeasure (SPCC) Plan

Bid and Contract Administration and Support

Constructability Review

Owner's Engineering Services

CIVIL PROFESSIONAL ENGINEERS LICENSED IN 25 STATES

Arkansas, California, Colorado, Georgia, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Mexico, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, Tennessee, Texas, Utah, Washington, Wyoming

Licensing and Professional Memberships

- ✓ CFM — Certified Floodplain Management
- ✓ LEED AP ND — LEED Accredited Professional for Neighborhood Development
- ✓ ENV SP — Envision Sustainable Professional
- ✓ SITES AP — SITES Accredited Professional
- ✓ PMP — Project Management Professional

→ Why RRC

Our team is known in the civil engineering industry for its reliability, responsiveness, and uncompromising commitment to quality. With us, you can trust that your project will be delivered on time, with clear communication every step of the way, and executed with precision and expertise. Experience the difference with RRC.

→ Our Aspiration

At RRC, we aim to empower our civil engineering group to deepen their technical expertise, cultivate independence within their domain, uphold responsibility and accountability, and prioritize the delivery of high-quality results.
