

# GEOTECHNICAL ENGINEERING

STATEMENT OF QUALIFICATIONS

RRC's Geotechnical Engineering Group is where innovation meets expertise in the dynamic field of geotechnical engineering. As a leader in the industry, our geotechnical team offers a comprehensive range of specialized solutions tailored to the unique needs of each project. From site investigation and analysis to foundation design and construction monitoring, our team is committed to delivering quality results and ensuring the success of every endeavor.

Construction Support

## → Licensing and Professional Memberships

Our engineers and geologists hold Professional Licenses in 40 U.S. states. We are active members of ACP, ASTM, ASCE and other local and regional professional societies.

## → Why RRC:

At RRC, we redefine geotechnical engineering services with a specialized focus on the renewable industry. Our team comprises highly skilled engineers and geologists who bring a wealth of expertise to every project. What sets us apart is our unwavering commitment to delivering quality results on time, every time, ensuring reliability and accuracy at every stage. With a keen understanding that experience matters, we collaborate closely with multidisciplinary design teams to optimize both design and construction processes. We aim to go above and beyond, taking full ownership of each project from inception to completion, guiding our clients every step of the way to ensure their success. When you choose RRC, you're choosing excellence, innovation, and a partner dedicated to your project's success.

Our clients appreciate our extensive experience, technical proficiency, and widespread geographical reach, enabling us to efficiently conduct projects in numerous states across the U.S. and beyond.

Our goal is to consistently innovate and refine our services, while maintaining our position as a trusted partner for our clients.
