

PROJECT DEVELOPMENT SUPPORT

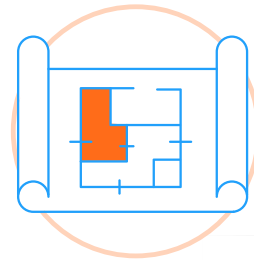

STATEMENT OF QUALIFICATIONS

RRC's Project Development Support group is a dedicated team that spearheads the critical initial phases of a renewable project.

From providing comprehensive multidisciplinary designs essential for site selection and permitting tasks to offering strategic advisory and conducting meticulous technical due diligence, our **PDS** services are the cornerstone of your project's success. We meticulously define project goals, assess constraints and technical nuances, explore alternatives, evaluate

feasibility, and ultimately recommend the optimal solution at each stage, utilizing available information with precision.

- ✓ NACCO

→ Services

Conceptual Screening

- Land Scoring Matrix
- Preliminary Layout
- Energy Production Report

Feasibility Studies

- Geospatial Services
- Energy Production Analysis, P50-P90 Probabilistic Evaluations
- Geotechnical Investigations (Desktop, Preliminary and Full)
- Pile Load Tests
- Remote Sensing and Topographic Surveys (I.e. Lidar, Orthorectified Imagery, etc.)
- Hydrology Studies (Desktop & Pre-Development)
- ALTA

Permitting

- Weighted Constraints Map (Concentration of Sensitive Resource Constraints)
- Boundary Survey
- Specific AHJ Drawings, Permitting Package (Road & Wetland Crossing)

Schematic Design

- Shading Analysis
- Power Prediction/Loss Estimates
- Slope and Grading Analysis
- Main Equipment Recommendation
- PV Plant Layout
- Substation Layout
- Schematic Design Package

Bidding

- Request for Proposal Production
- Bidding Support
- Proposal Evaluation Matrix
- Technical Due Diligence Support
- Supplier Quality Engineering
- Initial Stages Supply Chain Support

Why RRC

Choose RRC for a distinctive approach to engineering services. Our Project Development engineers bring an unparalleled combined experience of over 100 GW across global projects. As your one-stop-shop, we streamline your project with a comprehensive suite of services under one roof, saving you time and effort. What sets us apart is our commitment to tailored solutions. Unlike competitors, our PDS team crafts proposals designed specifically for your project, prioritizing your unique needs over generic offerings. Recognizing the urgency in project development, we maintain daily communication for transparency, timely updates, and a collaborative approach throughout the project lifecycle.

Backed by extensive industry experience, we consistently demonstrate a commitment to delivering high-quality outcomes with precision and reliability, ensuring projects are completed punctually. Our hallmark responsiveness establishes seamless and efficient collaboration, fostering a relationship of trust and confidence. RRC stands for a service that is not only client-centric but also synonymous with excellence and reliability.

At RRC, we are here to help our clients to shorten the learning curve within the project development and execution process, enabling them to develop, acquire, or finance viable assets with the highest levels of confidence.
